Hi there, here is the interpretation of the astrological chart that you asked for. Also attached is a .GIF graphic file which depicts your chart wheel. Thank you for visiting the Astrolabe WEB site at <http://alabe.com> This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Rising Sign is in 06 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self- directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 24 Degrees Virgo.

Extremely careful and cautious by nature, you value neatness and order above all else. You rigorously practice very high standards of living and conduct and you demand the same of everyone with whom you come into contact. At times, you are so supercritical that you are merely nit-picky. You are very good at practical skills and quite handy with tools of all kinds. You are also greatly concerned with hygiene, cleanliness and personal health problems. Very likely your health is much better than you think it is -- don't worry so much! Extremely methodical and analytical, you are a perfectionist -- this makes you the perfect person to carry out highly detailed, precise operations. But, at times, you pay so much attention to details that you lose sight of the larger issues.

Moon is in 29 Degrees Aquarius.

Very freedom-oriented, you must always be able to do what you wish, no matter what. You become stubborn and recalcitrant when others try to force you into a mold. You are a true democrat -- you are not a follower, but you enjoy being with those who are like-minded. You appreciate emotional self-control -- you practice it yourself and you look for it in others. You solve problems, including emotional ones, with your brains and intellect, not your feelings. Try to be tolerant of those who have powerful and obvious emotional responses -- not everyone is as objective, cool, dispassionate and detached as you are.

Mercury is in 19 Degrees Libra.

You are known for not jumping to conclusions about things. You tend to weigh all possible choices very carefully before making a decision. When in the slightest amount of doubt, you will compromise rather than ruffle any feathers. You are a true raconteur of culture and taste -- your ideas and opinions are neat, elegant and refined. A born diplomat, you dislike discord so much that you will go out of your way to make others feel comfortable and at ease. You speak softly and pleasantly.

Venus is in 07 Degrees Scorpio.

Your feelings about others are deep, powerful, intense and complex. When you like someone, you do so totally and obsessively if you do not like someone, they do not exist. Your faithfulness and

loyalty to your lover is unquestioned, indeed at times it is too much so -- you get so possessive that you almost smother your partner. At times, your feelings are kept deep within you and, because they are so complex and intense, they frighten you -- this is the way that you try to ignore them. But the more you try to do this, the more explosive things get when you eventually do express them.

Mars is in 20 Degrees Cancer.

Your moods are very important to your overall well-being. You are confident and self-assertive when you are feeling upbeat, and you are retiring, irritable and grumpy when you get depressed about anything. Very sensitive, you wear your heart on your sleeve. You are easily angered whenever you think someone has slighted you. It is best for you to show your anger immediately and let it all out, rather than to try to hold it in or to hold grudges for a long time. You're extremely loyal and defensive of your family, neighborhood, community and culture.

Jupiter is in 12 Degrees Scorpio.

You love to dig deep beneath surface appearances in order to find out what is really happening. A persistent researcher, you are very interested in the psychology of any situation. You tend to become overwhelmed by the complexity of what you uncover, however, and that makes you a bit gun-shy about explaining things to others. But you must learn to try to communicate as best you can because what you know is really very valuable to others.

Saturn is in 07 Degrees Pisces.

Your tendency to think that your life is out of control is based on an unreasonable fear, probably connected with an unfortunate experience with the person who filled the father figure role in your early life. Learn to take responsibility here and now for your own life. Try to stop having unrealistic expectations about guide figures. Remember that they are merely human, with all the same faults and self-doubts that you have. When you get confused or uncertain, try to simplify your lifestyle -- things will then become easier to bear.

Uranus is in 22 Degrees Capricorn.

You, and your peer group as well, seek out practical solutions to a changing society's attitudes to customs, traditions and authority structures. Your logical and orderly manner of dealing with these matters will result in permanent and carefully planned, but sweeping, reforms.

Neptune is in 20 Degrees Capricorn.

You, and your entire generation, will idealize work, practicality and the ability to attain reasonable goals. But, because you will also stress the need to be selfless and giving, you may find it difficult to attain your goals unless you have lowered your expectations on all fronts.

Pluto is in 25 Degrees Scorpio.

For your entire generation, this is a period of intense research and discovery in areas that were heretofore considered mysterious, remote or taboo. The root causes for many complex occurrences will be unearthed due to the intensity and thoroughness of the search.

N. Node is in 16 Degrees Scorpio.

You have a special aptitude for working by yourself, or with a like-minded group of dedicated

individuals. Once you've committed yourself to a person or group or project, your loyalty and devotion are total until the group's goals have been realized. Not at all gregarious by nature, you're uncomfortable around strangers, greatly preferring to be in known and familiar situations. Others may regard you as shy or eccentric, but those who know you well are aware of the intense loyalty that you have to your friends.
