Hi there, here is the interpretation of the astrological chart that you asked for. Also attached is a .GIF graphic file which depicts your chart wheel. Thank you for visiting the Astrolabe WEB site at <http://alabe.com> This report has been created especially for you. It represents your Unique picture at the time you were born and at the place you were born. If you are unsure of the exact time of day of your birth (or the date or the place), the reading will probably not seem as accurate as it could be in certain places, but other parts will seem to be very appropriate. You will notice at certain places in the reading that contradictory information seems to be given. This is to be expected, because the personality of most people is extremely complex. For example, at times we are quite shy and at other times we are very aggressive, and so forth. You will also notice that, at certain points in the reading, certain patterns may be repeated over and over, especially in a longer more detailed report than this one. This is also to be expected. This simply means that your horoscope has an extremely strong focus on this particular pattern and that you should pay extra close attention to what is said about it. Now, on with your Report!

Rising Sign is in 23 Degrees Sagittarius

You are known for being open, frank, outgoing and honest. At times, though, you are also blunt and quite indiscreet. Others have to learn not to take everything you say personally, because you usually do not mean any harm. You appreciate living your life in a straightforward and simple manner -- you dislike social niceties and consider them to be hindrances to real communication. You have lots and lots of energy and tend to become quite restless if you feel confined. You demand the freedom to do as you choose -- you must be self-directed or you feel trapped and anxious. With your abundant energy, you enjoy being outdoors, and you should be attracted to physical exercise or to those forms of sport which can help you burn off some of that excess energy. Very gregarious, you love to socialize -- your innate enthusiasm livens up any gathering.

Sun is in 27 Degrees Aries.

By nature, you are very energetic and high-spirited. You are fiercely independent -- you must be first in everything you do, and you enjoy taking risks. You are the one who will rush in where angels fear to tread. Quite brilliant at initiating new projects, you are terrible at following them through to completion. You are an enthusiastic leader but you tend to be a reluctant follower. Often you are quick to anger, but you usually recover just as fast, regretting later things you said when you were upset. One of your best traits is that you are simple and direct, blunt and honest -- just be careful you do not hurt others' feelings. Your need to be competitive at all costs may provoke resistance from others, but, as long as you maintain your usual Sunny good humor, this should not prove to be a major problem for you.

Moon is in 24 Degrees Leo.

You always want to be proud of yourself and will never do anything that will make yourself look bad. You need the respect and admiration of others and enjoy attracting attention to yourself. Everything you do tends to be self-emphasized and self-exaggerated. Very stubborn, willful and independent yourself, be sure to allow others who are close to you the similar right to "be themselves." Your need for love, affection and reassurance, and your tendency toward vanity, allow you to have your head easily turned by flattery. The more insecure you are, the more you tend to be a showoff. You love games and sports as a matter of fact, you would usually rather play than work. Be careful of a tendency to be snobbish and uppity -- it does not become you.

Mercury is in 09 Degrees Taurus.

A slow and careful thinker, you like to present ideas visually and concretely. Abstractions are quite difficult for you to understand. For you, everything must be practical and useful in order to merit your attention. You are a perfectionist -- you enjoy being skillful enough to handle the dexterity required of fine craftsmanship. Cautious and conservative in your thinking, you are very slow to change your opinions. You are more apt to respond to an appeal to your feelings than to an appeal to logic or reason.

Venus is in 00 Degrees Taurus.

You are known to be a warm and affectionate person, and you tend to form long- lasting attachments. The reverse of this is that you can also be quite possessive once you have made a commitment. The beauty, luxury and comfort of your surroundings are important to you and you will devote much time and energy to making your home just right. Beware of your tendency toward self-indulgence, especially with respect to eating incorrectly. You also need outside stimuli to get you in gear When things come too easily for you, you can be lazy and indolent.

Mars is in 17 Degrees Virgo.

Very careful and systematic, you pay great attention to details. You are always seeking perfection and sometimes get bogged down searching for the ultimate when adequacy would have been sufficient. You dislike abstractions, preferring whatever is practical, useful and demonstrable. You have a strong and enduring sense of personal responsibility, and you demand that others be as responsible and upright as you are. Very critical of yourself and others, sometimes you carry this too far and become overly intolerant of others and their right to choose their own lifestyles.

Jupiter is in 17 Degrees Aquarius.

Your personal growth occurs when you have the freedom to do things in new and interesting ways -- this brings out your natural inventiveness. You are an individualist, but you are also attracted to mass movements that emphasize social betterment and you will devote much time and energy to their efforts. Very fair- minded and objective, you have extraordinary skills at organization and administration.

Saturn is in 12 Degrees Aries.

You are aloof, independent and standoffish. This is mainly due to your fear that others might inhibit or restrict you and, quite frankly, you feel that you can govern your life by your own standards. Be careful not to associate with those who are overly critical of you or you will withdraw so deeply into your shell that you will become very lonely. You have the ability to stand on your own two feet and to make up your own mind -- albeit very carefully and cautiously. But you are known for your circumspection and therefore are respected and admired.

Uranus is in 08 Degrees Aquarius.

You, and most of your peer group as well, are reformers at heart. You want to make positive changes that will benefit society as a whole. You are willing to devote your time and energy to see that they come about, especially if the proper group support and combined purpose of will can be found. Be careful that your devotion to group goals does not produce too much friction or neglect in your own interpersonal one-on-one relationships.

Neptune is in 29 Degrees Capricorn.

You, and your entire generation, will idealize work, practicality and the ability to attain reasonable goals. But, because you will also stress the need to be selfless and giving, you may find it difficult to attain your goals unless you have lowered your expectations on all fronts.

Pluto is in 05 Degrees Sagittarius.

For your entire generation, society's cherished beliefs and totems will be radically changed. Many traditional concepts will be totally altered, if not completely destroyed. The rights of individuals to pursue their own course in life will be reasserted.

N. Node is in 28 Degrees Virgo.

You're usually quite at ease in leaving leadership roles in the hands of others. You would rather tend to the thousand and one details that need to be accomplished to keep any group going. Although you're very fussy and high-minded when it comes to choosing your associates, once your loyalty is given you can be trusted with many of the practical aspects of any project that is being undertaken. Usually quite unselfish, you will toil long hours in the service of any worthy cause that demands your attention. But be careful that your perfectionist tendencies don't get in the way of making real progress. (In other words, don't waste your time dusting clean shelves!)
